

Safe, Simple, Standard!

SMT AG

ISH

March 11 - 15, 2019
Frankfurt am Main

Dear visitors

New ways and solutions for known applications!

Visit us at our **stand C93 in hall 10.3.**

Our universal systems to control fire and smoke extraction dampers are awaiting you. In addition to making projects a lot easier we can offer you following advantages:

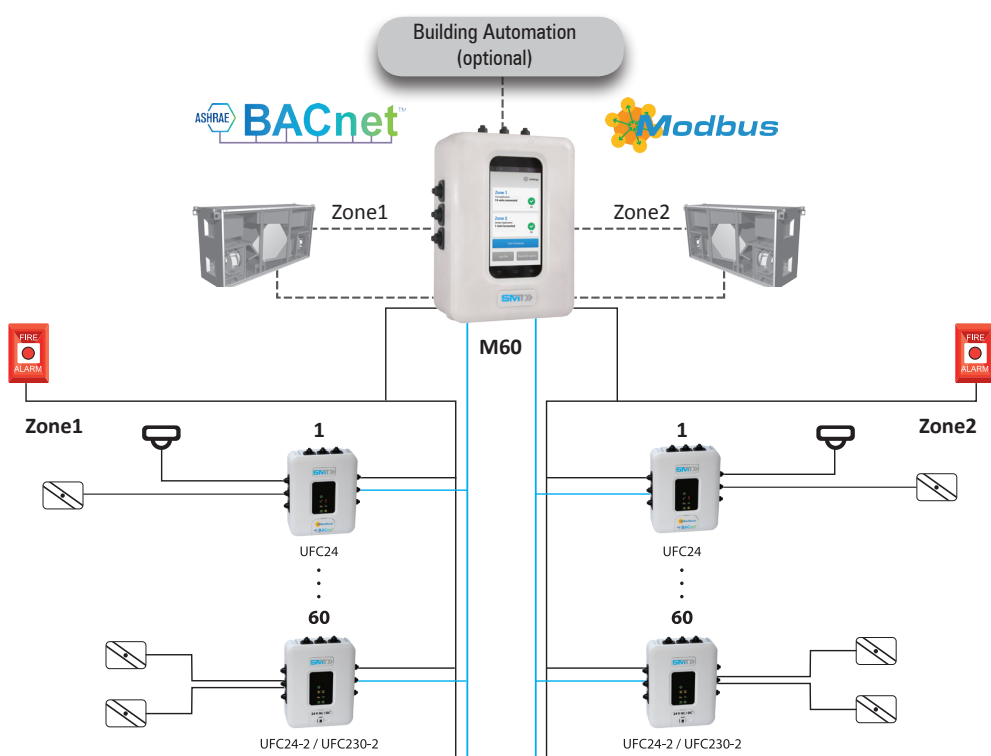

- **Simple and price attractive** - less components, comprehensive applications, all inclusive
- **Automatic commissioning** - the controller automatically takes the system into operation during start up
- **Intuitive** - simple handling via touch screen
- **Standard** - all components can be integrated via BACnet or Modbus

Come and see us and let us surprise you with further innovations.

We look forward to meeting you!
